

SEAL-S Conference Call

10/18/13 1pm

Present: Kristen LaBonte, Khue Duong, Liz Cheney, Cynthia Cohen, Lise Snyder

APPROVED MINUTES

1. Preliminaries (Agenda additions; approve minutes from 9/26/13 meeting)

- approved

2. Fall program planning update (planning committee)

- Lila Higgins is the Citizen Science leader at the Natural History Museum in LA and is interested in speaking and/or helping moderate a panel. She is looking into the possibility of hosting the program there and has another person there that might be interested in talking. Southern CA has a Citizen Science Consortia that will be meeting soon.

- She asked if we wanted scientists, citizen scientists, or project managers on the panel.

- Sometime in December might be good even though it's a busy time of year. Tues. the 10th and Fr. The 13th are possibilities for the program right now. Another option is to go into next year, perhaps Jan. 13, but the group prefers to host the program in the fall if we can put the program together.

3. Officer recruitment update (Lise)

Lisa will draft the message to CARLALL and will send it to SEAL-S for approval beforehand.

4. Announcements/Updates

UCLA Biomedical Library has a position for a Research Informationist open.

An advertisement for Digital Archivist for Special Collections position at CSU Long Beach was just posted.

5. Schedule next meeting

- Liz will send a Doodle Poll for an early Nov. meeting, but we will be communicating about the program via email.

6. Adjourn
