

Dissecting a Database: Leading Students to Discovery-Based Learning

Cinthya Ippoliti

and

Dominique Turnbow

UCLA Biomedical Library

Development of “Dissecting a Database”

- Started out as tool for learning various interfaces
- Grew into an online exercise
- Implemented within the classroom environment

Examples

- Life Sciences
- Nursing
- Psychology
- Ambulatory and Family Medicine

The Future of “Dissecting a Database”

- Adapting the tool for other types of classes (e.g. Endnote)
- Interactive, online tutorial

Contact Information

Please contact us if you have any questions!
